

# Emotion Cards

These cards are designed to you discover the thoughts, feelings and behaviours that can happen with different emotions.

They could also be used to express an emotion, if you are struggling to find the words. Remember that everyone experiences emotions differently and that is okay! Emotions come and go, we might feel an emotion for a long time or a short time. There is no such thing as a 'bad emotion' - it is okay to experience any emotion!

Sometimes we may feel two or more emotions at the same time, this is called 'mixed feelings'. Some emotions can feel a bit uncomfortable so it is important to look after yourself and speak to a trusted adult!

# Activity Ideas for Emotion Cards

**Emotion Scenarios:** think of a scenario (example: playing with friends) and match the emotions to the scenario.

**Use the blank emotion cards to draw or stick your own faces for each emotion!**

**Guess the Emotion:** Play with friends or trusted adult. Take turns to make a face and see if others can guess which emotion!

**Emotion Storytelling:** Pick an emotion and then tell a short story about a time you felt like that.

**Supporting Our Emotions:** Choose an emotion that can make you feel uncomfortable and talk about ways to help with this emotion.

**Use the emotion cards to describe how you are feeling before, during and after an activity!**
